

KHUNDRAKPAM BIKASH MEITEI

AI Engineer | Generative AI | Agentic AI | LLM Engineering | Full-Stack AI Systems

+91 7005513301 | khbikash17@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#) | [LeetCode](#) | [CodeChef](#)

Professional Summary

AI Engineer and CSE undergraduate (**CGPA: 9.32**) specializing in **Generative AI, Agentic AI, RAG pipelines, and LLM Engineering**. Founder of **ReflexCube** — a production-grade, prompt-driven AI platform with 15 domain-specific intelligence agents, real-time SSE training streams, and a 3D visualization interface, backed by published research. Experienced in end-to-end ML lifecycles, multi-agent orchestration, RL environments, and LLM evaluation using **Python, FastAPI, LangChain, HuggingFace Transformers, PyTorch, MLflow, PostgreSQL, and Docker**.

Technical Skills

Programming Languages: Python, TypeScript, JavaScript, Java, C++, SQL

AI / ML & LLM Engineering: Generative AI, LLMs, RAG, Semantic Search, Embeddings, Transformers, HuggingFace Pipelines, Prompt Engineering, NLP, Fine-Tuning, Reinforcement Learning, ROUGE, BERTScore, MLflow, MLOps

Agentic AI & Orchestration: LangChain, LlamaIndex, Multi-Agent Systems, AI Agents, Function Calling, Tool Calling, Vector Databases, SSE Streaming, Workflow Orchestration, Intelligent Automation

Frameworks & Libraries: FastAPI, React 18, Next.js, Three.js / React Three Fiber, PyTorch, TensorFlow, Scikit-learn, Recharts, Pandas, NumPy, Pydantic, Streamlit

Backend, Databases & DevOps: PostgreSQL, SQLite, ChromaDB, Pinecone, Redis, Docker, GitHub Actions CI/CD, AWS, GCP, Git LFS, Linux, REST APIs, JWT Auth, RBAC

Professional Experience

AI/ML Intern — Bot Point

May 2026 – Present

- Built and deployed **LLM-based AI agents** using **Python, LangChain, and HuggingFace Transformers** to handle **1K+ user queries/day** for an AI-powered business automation platform, improving response accuracy by **30%**.
- Designed **API-driven AI workflows** with prompt engineering and automated evaluation pipelines, reducing manual intervention by **40%** and improving system reliability.

Projects

ReflexCube — Prompt-Driven Modular AI Platform (Founder)

[GitHub](#) | [Live](#)

Stack: Python, FastAPI, PyTorch, HuggingFace Transformers, LangChain, React 18, Three.js, SQLite, Docker, SSE

- Architected a production-grade no-code AI platform with **15 domain-specific intelligence agents** (Legal, Finance, HR, Vision, Memory, etc.), each an isolated async agent via FastAPI ThreadPool with **subprocess-isolated ML workers** (zero GIL lockups).
- Built **real-time SSE log streaming** (live JSONL output to frontend terminal) and an **immersive 3D React Three Fiber** interface; full pipeline: prompt → train → version (Git LFS) → predict → download .zip.
- Achieved **200ms** inference latency, **10K+ dataset** support, **40%** semantic retrieval improvement, and **70%** reduction in AI development effort; co-authored published research paper.

AgentBench — LLM Evaluation & Benchmarking Platform

[GitHub](#)

Stack: Python, FastAPI, LangChain, MLflow, ROUGE-L, BERTScore, React 19, TypeScript, Recharts, SQLite, Docker

- Built a full-stack LLM evaluation platform for **side-by-side multi-model comparison** (Gemini 2.5 Flash, Llama 3, Mixtral); automated scoring with **ROUGE-L and BERTScore F1**, latency and token-cost tracking per run.
- Integrated **MLflow experiment tracking** and **HotpotQA benchmark** (50-question validation set); analytics dashboard with Latency vs Accuracy scatter plot and CSV/JSON export.

MonsoonRelief-OpenEnv — Disaster Response RL Environment

[GitHub](#) | [HF Space](#)

Stack: Python, Pydantic, FastAPI, Docker, HuggingFace Spaces, Reinforcement Learning, OpenEnv

- Built an **OpenEnv-compliant RL environment** simulating multi-objective disaster response (flood zones, scarce resources, demographic vulnerabilities); Pydantic-typed observation/action spaces with dynamic scalar reward logic.
- Implemented a **3-tier programmatic grader** (Easy/Medium/Hard) with zero-to-one scoring; zero-shot Llama-3.3-70B baseline achieved **2.50/3.00 aggregate** (88% Easy, 76% Medium, 86% Hard) — deployed on HuggingFace Spaces via Docker.

Education

KL University, Andhra Pradesh

2023 – 2027

Bachelor of Technology in Computer Science and Engineering

CGPA: 9.32

Research & Publications

- ReflexCube: A No-Code AI Platform Architecture for LLM Application Development** — Naitik Dubey, Vivek Dubey, Rohit Singh, Prateek Singh, K. Bikash Meitei, Dr. Lakshminarayana K., KL University, 2026. [\[View Paper\]](#)

Certifications

SAP Generative AI Developer (2026) | OCI Architect Associate (2025) | Salesforce AI Associate (2025)

Achievements

- Solved **700+ DSA problems** across LeetCode (321 solved, 8 badges incl. 100 Days 2026) and CodeChef (**4-Star**); **26 public GitHub repositories** spanning AI, full-stack, and MLOps.
- Built **7+ production AI systems** including a 15-agent platform, LLM evaluation suite with MLflow, a disaster response RL environment (2.50/3.00 benchmark), and a Generative AI document analyzer.
